The Austin housing market shows no signs of slowing down in the near future. If you have thought about purchasing a home and continue to put it off and wait for the bubble to burst. Don't! I have watched people spend almost 100k more on the same house 6 months apart. Don't miss out on getting into the home of your dreams waiting on a bubble. In the austin housing market, knowing how much over asking price homes will go takes a realtor that knows the market and understands how the listing agent has priced the home. Realtors, Buyers and Sellers alike need the Bid Over Ask Calculator. Bidding Wars are common in a Seller's Market. Is there a home just on the market and you know there is A LOT of interest? A bid over the asking price (otherwise known as a contract escalation) may be required to win, but it's not clear just how much over ask will win, or even make sense! With the Bid-Over-Ask calculator we now have a tool that will use historical and forecasted appreciation models to see when property appreciation will cover the additional bid over the asking price. It is super important that you don't OVER-BID on the home, but also don't UNDER-BID! Use this tool in conjunction with our EMA Purchase Worksheet and you will have all the info you need to make the best offer!
