iPhone 6 / 6s / Plus: Home Button Stuck, Sticky, Unresponsive, Wont Work, Broken- 3 Fixes!!!

I give you 3 possible easy fixes to get your home button working again without the need to open your iPhone 6, 6s, or Plus. Note that the third option is not a fix but a work around and you will be able to take screen shots this way too. Here are the 3 possible fixes / workarounds 1- Re-calibrate home button- especially good for slow or laggy home button. 2- Rubbing Alcohol- dirt, grime, sand, lint, hand lotion, soda, etc can be stuck around or in the crevices of the home button. 3- Assistive Touch- This is a workaround but you will also be able to take screen shots. Please like, sub, share! Thank you. FACEBOOK: facebook.com/ILUVTRADING TWITTER: twitter.com/VirgilForex

How To Quickly: Bypass A Broken/Non-Responsive iPhone Home Button

Has your iPhone home button stopped working? Need a workaround so you can keep using your phone until you have time to get it fixed or replaced? Well, watch this video or do the following: 1. Reboot your iPhone or touch the edges of the home button until you can get to your home screen. 2. Tap settings - General - Accessibility - Assistive Touch 3. Turn on Assistive Touch 4. Tap Customize Top Level Menu 5. Tap the "-" button until only one icon is left 6. Tap that last icon "custom" and then tap home 7. Drag the new onscreen home button to the position of your choice and use it just like you use the real home button. If you enjoy quick tutorials without too much waiting, depth and side information, feel free to subscribe to this channel. Because two minutes is too long.

iPhone 6 home button replacement

This video will guide you through the process of replacing the home button on an iPhone 6. The video is a step by step follow along guide, with nothing left out, from start to finish. IMPORTANT NOTE: Every home button is synced with the unique logic board in the iPhone so replacing a home button will take away the users ability to use Touch ID and Apple Pay. All standard home button function will work. How to Use Your iPhone With a Broken Home Button

In this video I'll show you how to use your iPhone when the home is broken or not responding. We got this iPhone as a replacement for one that failed under warranty. Unfortunately the home button and Wi-Fi on this one are not functional so we took this opportunity to create a tutorial for anyone out there who can't use their phone due to a broken home button. Whether you are stuck on the activation screen or locked out of your phone because of a broken home button this video will show you a workaround. If your phone has a pass code just enter it after you tap on the virtual home button created through the assistive touch options in your settings menu.

How to fix a jammed home button without disassembling Apple iPhone home button repair and reset DIY

Some ideas to fix your broken home button

iPhone 7 and 8 Broken Home Button Easy and Quick Fix (100% WORKING SOLUTION)

This Solution is for iPhone 7, 7+, 8, and 8+. If you have broken home button and you need a quick and easy fix please watch the video. GOOD NEWS: No Soldering, Charging port flex cable Or Bluetooth connection required. This button works by itself and fitting is as easy as you are installing the original button. if you opening your iPhone for the first time please keep it in front of a fan heater for 10 minutes so the adhesive glue around the screen gets soft, it will be much easire to detach the screen from the housing (if you are confident with your repair you may skip this step). Once you turn on your phone it will stay on apple logo for couple of minutes and after it comes on it wil work as normal. Where to Buy: tecspar.com/mobile/iphone/iphone-7.html?p=2 If you have any questions please feel free to ask.

iPhone home button not working fix

Here is a fix for those with a iPhone home button not working or your home button is not recognizing your finger print effectively as it once did or is very slow.
