### The True Cost Of Your Smart Home

Today I'm asking the questions: How much does smart home technology cost in electricity? How much electricity does your computer use? How much electricity does a fan use? Is it a waste of money to have multiple smart home hubs? Google Home versus Amazon Echo, Harmony Hub versus Broadlink RM pro. Android set top box versus Raspberry Pi; Which device is costing you the most electric? This video also serves as a Teckin Smart Plug Review. The socket works with the Amazon Alexa Echo dot and Google Home, and IFTTT, but also works for Energy Monitoring and setting timers via the Smart Life app. Thanks to Teckin for sponsoring this video! ### How much does a Control4 smart home really cost

The most honest, transparent, no BS video we have EVER done. Literally taking you through pretty much every element of a Control4 smart home and explaining the costs. From design right through to aftercare. We even talk you through a few of our projects and explain how much the cost. We wanted to show people planning a project or self build that this level of smart home is possible with the correct budgeting - the most important part is getting that prewire in! I also wanted to show that despite the nature of what we do being so totally bespoke - there is a space for transparent and fair pricing and HNWI's shouldn't be extorted on these systems because of their wealth status or how many cars they have on the drive... So here it is, all the questions about what goes into a Control4 smart home and a breakdown of all the costs .... Chapters 0:00 Intro 4:37 How to contact Art of Smart Group LTD/ Initial consultation 6:57 AOS Showhomes 8:08 When do we need to be on site? 11:36 Design 12:45 Electrical Element 14:22 Pre-wire 16:10 Multi-room Audio 17:48 Video Distribution 21:05 Media Room/ Home Cinema 24:19 CCTV & Security 27:21 Lighting Control 29:57 Motion Sensors 30:43 WIFI & Network 32:25 Smart Heating 34:39 AC Controls 35:30 Curtains & Blinds 37:01 Renewable Energy 38:14 Touch Screens & Remotes 41:54 Video Intercoms 44:28 The Rack & Components 47:14 Service & After Care 51:43 AOS Case Study #1 52:47 AOS Case Study #2 54:05 AOS Case Study #3 55:02 AOS Case Study #4 56:05 AOS Case Study #5 57:53 AOS Case Study #6 59:57 Conclusion & Wrap-up Instagram: [instagram.com/artofsmartuk/](https://instagram.com/artofsmartuk/) LinkedIn: [linkedin.com/company/arto...](https://linkedin.com/company/arto...) ### How Much Does A Smart Home REALLY Cost in Electricity!

Buy a kill-a-watt meter here! Cheap and fun! [amzn.to/2IqWrSk](https://amzn.to/2IqWrSk) Like this video and all my others? Buy me a coffee [buymeacoffee.com/thekmz1](http://buymeacoffee.com/thekmz1) Check out my amazon shop, periodically adding deals and products [amazon.com/shop/thekmz1](https://amazon.com/shop/thekmz1) In this video I use a kill-a-watt meter to measure how much power is being used by the entire rack. I then compute the yearly cost, which was a little surprising! I will be posting more statistics in the coming days, so stay tuned Security cameras being powered by PoE are using about 60 watts Some links used in this description may be affiliate links
