In home pet euthanasia experience

This video is meant to be an educational video on the in-home euthanasia procedure. It was made with the intention to prepare pet owners who are facing this difficult event, also to de-mystify the procedure and show what a peaceful event this is for the pet and how it can be made meaningful for the family. I want to acknowledge and thank the Swanson-Parmentier Family who has agreed to be part of this project. Despite their pain and sadness in the loss of Jolie, they selflessly lent themselves to the camera and shared this very personal experience in the hope that it would help other families faced with the loss of a cherished pet. If you have any questions or need help, contact us at dr.forslund@homepeteuthanasia.com This is Jolie's legacy.

The emotional costs of euthanasia | Sarah Hoggan DVM | TEDxTemecula

Euthanasia is a decision that will echo in your mind long after the event. This talk explains that echo and why it occurs. Sarah has worked as an emergency doctor throughout her veterinary career. She feels her most important task as an emergency doctor is translating the medical diagnosis and clinical situation into a more understandable context for the family so they can make decisions feeling empowered instead of overwhelmed. This talk was given at a TEDx event using the TED conference format but independently organized by a local community. Learn more at ted.com/tedx
