Green Magic Homes

Green Magic Homes Today

For hundreds of years, all over the world we've been living in earth covered homes. Today we can have all of the modern luxuries with the benefits of mother earth as insulation. These well-lit sustainable homes are approved for construction ANYWHERE an ordinary home can be built (PROVINCE WIDE)! We have many prototypes and are able to customize homes/floor plans to your liking within days. Green Magic Homes can be built within a weeks time, usually taking about 3 days. When you can have a home twice the size for half as much... do yourself a favour and check this option out! Not to mention the cost of living is much lower. The actual rate of building cost FROM NEW is ONLY \$91/sq ft! So for a 2000 sq ft (4 bedroom/4bath) building on a full basement with HVAC, plumbing, electrical, windows and doors and it's ONLY \$182 000! Any home comparable is double this cost! Why settle for a fixer-upper when you can build a fully sustainable, custom home for less? Consulting: aaronmarino.com Pete & Pedro: peteandpedro.com MENfluent Media: menfluent.com MENfluent Conference: menfluentconference.com/ Tiege Hanley: tiege.com Ollie: olliesmile.com Field trip! In this video men's style, grooming, fitness and lifestyle expert, Aaron Marino of IAmAlphaM, AaronMarino, and Pete & Pedro found these cool homes while out running. He found this hobbit house, posted the picture on Instagram, and then met the owners. Now he's giving you a tour! After the tour, he interviews the distributors of the homes. The homes are green and sold throughout the US & Canada. They are manufactured shells that are assembled based on plans. You can make them as big as you want, and no matter the size, they feel spacious due to the 11 foot ceilings. Luxurious but affordable, the homes are constructed from fiberglass that is slightly more expensive than lumber but extremely durable. They are tornado and hurricane proof, covered by earth outside. It's like super sexy bunker. You can even grow organic vegetables in and outside of your house! Alpha loves the amount of windows — so much light. And they are energy efficient. They are focused on getting everything green. Alpha gets a tour of the Smartflower solar too — powering up to 2,000 square feet. It's important to go green — we need to give back to the planet and stop wasting resources. Make an effort. Their mission is all about housing that lasts, is maintenance free, and has systems with less waste & money. The ultimate goal is as minimal impact on the planet as possible.

GREEN MAGIC HOMES - SAVE YOUR MONEY

We are now, as of June 2016, fully supported by Nova Scotia and the City of Halifax! The actual rate of building cost FROM NEW is ONLY \$91/sq ft! So for a 2000 sq ft (4 bedroom/4bath) building on a full basement with HVAC, plumbing, electrical, windows and doors and it's ONLY \$182 000! Any home comparable is double this cost!
