The BEST options for charging your Tesla at home!

Official Because Tesla merch (including the Trust Science design): teespring.com/stores/because-tesla-streetwear Order your new Tesla with my referral code to get 1000 miles of FREE Supercharging! ts.la/erik17075 I bought a Tesla wall charger over a year ago, and I just got around to installing it. I'll show you what it can do, how much it cost, and also go over a few more options that you have in regards to charging your Tesla at home. Details about my wall charger: Mine is a Tesla Gen 2 Wall Connector, and it is installed on a 60amp circuit / 240volts. Max output is 48amps, 11.5kW, and charges at 44 mph. Products mentioned in this video: Tesla Gen 3 Wall Connector: shop.tesla.com/product/wall-connector Tesla Gen 2 Wall Connector (hard to find): amzn.to/3kCcTPw Tesla Gen 3 Wall Connector (if sold out from Tesla.com): amzn.to/33M6rzb Tapes Wall Connector Cable Organizer: amzn.to/33OusWf Tesla Cable Organizer: shop.tesla.com/product/cable-organizer *The Tapes cable organizer and other goodies can also be found on their website: tezparts.myshopify.com/becausetesla I have also worked out a deal with Abstract Ocean to get you 15% off your first order of Tesla accessories. Coupon Code: [becausetesla](https://becausetesla.com) Check them out here: abstractocean.com?aff=becausetesla I have put together a collection of MUST HAVE products for your Model 3: kit.co/BecauseTesla/tesla-must-haves If you like my channel and would like to be a sponsor so I can buy new products and gear to review, donations can be sent to: paypal.me/BecauseTesla For you Rockstars out there, I also have a Patreon page if you'd really like to help supercharge the channel. patreon.com/becausetesla **As an Amazon Associate I earn from qualifying purchases. #Tesla #Model3 #HomeCharging

Tesla Home Charging Options

In this video, I do a series of tests on 3 different charging options I have available to me in my home. How convenient is charging an EV car at home? How fast is it? I explore all fo these options. 0:00 - Intro 1:00 - 110V Wall Outlet 1:47 - 230V Outlet 2:37 - Tesla Wall Connector 4:12 - Other Charging Options 4:59 - Summary/Conclusions Disclaimer: In this video I'm using a 14-50 generator hookup in my garage. This hookup is supposed to push electricity into my house and it is not an open circuit. To enable the circuit for the generator, you need to disconnect power to your entire house. For this video, I bypassed the interlock in my house panel to allow power to flow out to the outlet. I don't recommend you try thing yourself. If you are looking to get 1000 free Supercharger miles when buying your Tesla, please feel free to use my referral code: tesla.com/referral/jim58610

How Much Does It Cost To Install A Tesla Model X Wall Charger At Home

What's up guys!?! Here is how much one electrician told me it would cost to install a Tesla wall charger at home. I'd love to get your feedback on how much you paid if you had one installed or had an estimate for a install. Comment below on any thoughts or questions you might have. I'm curious to know how much it actually costs to get a wall charger installed at home. How much it Costs to Charge a Tesla Model 3 at Home

I'm going to use my Tesla Model 3 Mid-Range which has EPA class of 123 MPGe which is rated at 3.7 miles per KWH. Now let's take the average miles driven yearly in the US, which again is 13,476 miles divided by 3.7 miles per KWH. This gives us a total of 3,642 KWH of Electricity. We now have to multiple the price of the average KWH in the US which again is 13 cents. This Gives us a total of \$473 dollars to charge the tesla model 3 midrange yearly. Want a Tesla? Get \$FREE Supercharger miles! ts.la/evan87711

Tesla Nema 5-20 Adapter: shop.tesla.com/product/gen-2-nema-adapters Nema- 5-20 Extension Cord- 25/50 Feet: amzn.to/39gxpzb Nema 5-20 to Nema 5-15 Adapter: amzn.to/2SC1i7v Follow me on Twitter: twitter.com/michielsevan If you found this video helpful, please like and subscribe; this allows to me to produce future videos. Thank you so much! #teslamodel3 #tesla #model3 Let's now compare this yearly price with my previous vehicle, the 2009 Audi A4. Still driving 13,476 miles per year with a rating of 25 MPG at an average premium gasoline price of \$3.37 per gallon here in North Carolina, the cost would come out to \$1,816.56 with a total consumption of 539 gallons of gasoline. Not to mention emitting 10,560 pounds of CO2 emissions into the air. To see how much money we saved by switching to a tesla model 3, lets take our original yearly gasoline price from the audi which was 1,816.56 minus our yearly energy cost of the tesla at 473.00. After doing the math we would save \$1,343.56 per year in energy costs. As we can see, a tesla model 3 is far more efficient than your traditional gasoline car and are financially superior in the long term for transportation. Lets put this into perspective, with these average numbers I mentioned before and if the tesla model 3 owner were to keep the car for 8 years. They would see a savings of 10,748 dollars and that's if these energy prices stay the same in the future. I personally think over time electricity costs will come down with the advancement in renewable energy technology like wind and solar power options. Keep in mind charging at public locations and tesla superchargers will have an

impact on this total savings number. Typically, Tesla Superchargers will cost 28 cents per KWH and the largest online network, ChargePoint, will vary from mostly Free to 1-3 dollars per hour. Again, this will all vary based on your city. To find out how much money you could save I have posted a link below on all the states with their electricity rates along with some other helpful calculators I found. If you are looking at buying a tesla here in the future be sure to use my referral link to receive free super charger miles. calculator.net/fuel-cost-calculator.html eia.gov/electricity/monthly/epm_table_grapher.php?t=epmt_5_6_a teslanomics.co/tesla-monthly-charging-cost-calculator/ teslanomics.co/tesla-model-3-fuel-savings-calculator Tesla Referral Link: Get free Supercharger miles! ts.la/evan87711 Follow me on Twitter: twitter.com/michielsevan
