### Make Great Money Doing Aerations! 📺 How To Stand On Aerator Basics With Brandon

As we head in to fall, I know a lot of you guys have aerations on your mind! It's a great way to expand your service offering and to create some great cash with not much extra expense to your business. Brandon is going to be doing his own aerations soon, so I wanted to get him up to speed on how to use the Exmark Stand On Aerator. I bought this unit 2 seasons ago with a fleet deal when I picked up my new lawn mower. Aerations are a great way to make some serious coin in the fall, especially if you get into overseeding. The best rule of thumb I can offer is to charge \$15 per 1K sqft of property. So simple terms, a nice sub style lawn may be \$50-\$75. Larger properties you can always charge more, up to \$200-\$250 per acre. What do you guys charge for aerations where you live? Do you guys currently offer aerations, or do you plan to in the future?
