I had no childcare experience, no formal business experience, I had never walked into a childcare business before nor did I have children of my own. But while in prayer, I asked God for his direction for my life and clearly I heard the word, 'daycare.' I immediately got started and moved confidently in the directions of my dreams. When I started my first childcare I struggled with enrollment, business management and staffing. I had no idea how to successfully grow my childcare business. Enrollment was dwindling in but not quite how I had envisioned. I was stuck with a building licensed for more than 200 children and I only had 60. I was the driving force of my business. I, literally worked in every position of my business - from the front desk receptionist, after- school bus driver, cook and occasionally I worked in the classroom as a substitute provider. I left work every day feeling overwhelmed and tired. The next day I'd start all over again - feeling overwhelmed. I needed relief. Weak in faith and without guidance, I made a decision to sell that location. After giving birth to my first born, my passion to care for children intensified. I realized it never left me so I began to pray again. This time I had no money, my credit score was low and there was no one to go to for help. I started with what I had and began babysitting for \$10 per day. As my baby-sitting services began to grow, I applied and obtained the license for family. We continued to grow so I obtained the license for group, then we grew to two groups and on to a large center. I moved into two large facilities to care for over 160 children each day. All of this happened in less than five years. I had purpose, promise and passion but there was no payoff until I realized there was a better way to achieving childcare success. Through many years of hard work through trial and error, I finally found the formula to grow my childcare business. When I look at my wonderful life now, I realize it was determination and hard work that helped to build the childcare business of my dreams. My income grew successfully from \$10 per day to \$3000 per day in my childcare business. I created systems which make childcare easy. Today I am dedicated to

sharing with others and want you to know – you too, can truly build a childcare business that generates wealth and happiness as you manage the childcare business you love!
