Home Decor You Need to STOP Buying ASAP & AFFORDABLE Alternatives! Interior Designer Tells All!

In today's video, we discuss home decor and furniture that you NEED to stop buying! We all love to pick up these home decor items, but there is a more strategic shopping strategy that can save you money and keep your home looking beautiful. For example, so many of us buy coffee table books from HomeGoods that are overpriced or don't add any style to our homes when we could instead reuse books we already own or buy decorative boxes that LOOK like coffee table books, but actually store items that easily clutter up your surfaces. In today's video I talk about rugs, coffee table books, seasonal decor, decorative pillows, storage containers, and things you can't return! While I tell you why you shouldn't buy these items, I also provide you with aesthetically pleasing, affordable alternatives! Are there other items that you think people need to stop buying? Which home decor item are you guilty of buying? Let me know down below ↓👉! Thank you so much for watching and please remember to subscribe! 👉👉
